

Two-Ram Series

Horizontal Balers

TR-1388-150

TR-1170-100

IBC's Two-Ram series is engineered, designed and manufactured using the latest technology in the baling industry.

The Two-Ram Series' key to performance lies in its innovative shear design along with its ease of operation. International Baler Corporation utilizes a heavy-duty box section frame design, combined with the standard Bale Door/Bale Release System to ensure maximum bale density and efficiencies.

Technology, performance, customer value and customer service have been the hallmarks of the International Baler Corporation for over sixty years.

Two-Ram Series

Features:

IBC offers an extremely diverse line of Two-Ram Balers. From mid-sized 8" Bore units geared toward smaller volume applications, to our big 13" Bore units that can handle much larger volumes and non-ferrous materials. IBC has a Two-Ram unit to fit your requirements.

- Heavy duty welded construction
- T8 & T10 Regen Hydraulic System
- Integrated disconnect providing for lock-out/tag-out procedures
- Adjustable shear blade
- Fully Automatic Baling
- Multi-material capabilities
- PLC equipped electrical panel UL Listed
- Easy to operate "touch screen" controls
- Adjustable photo cell control
- Meets or exceeds all current ANSI Z 245.5 safety standards
- Quick material change over
- Our exclusive "removable" chamber wall
- Baler door system
- Additional Innovative Features

Available touch-screen controls and remote operator's stand simplify operation.
